

Summer, 2021

A big big thank you!

We would like to express our gratitude for your financial support with Carbon Christian Academy for the 2020-2021 school year. With new changes in our world this year, it was refreshing for our students to have a constant with school and that is because of your generosity of giving to CCA. It is so heartening when we receive a gift from a generous donor that allows us to say “yes” to one more child/family that wants to come to CCA. We cannot wait to see the families that get to come to CCA in the years to come. Carbon Christian Academy has 15 students enrolled this year from Kindergarten to Freshman. We cannot begin to thank you enough!

Testimonials from CCA students:

“I love CCA, because I can get a good Biblical education. I like that there is a time set aside everyday for Bible study. Everyone treats each other fairly and with kindness. The teachers are friendly and helpful, while the students are respectful of each other.” - Freshman student

“What I love about CCA is that you are surrounded with people who love and praise our Savior daily! I have never loved coming to school, but I do love doing school work that brings me closer to God.” - Eighth Grade student

Events at CCA

Carbon Christian Academy students and staff are able to go on different field trips and have different events throughout our year that help encourage our students to keep working hard. Since the students at CCA do self-paced work, we always want the students to stay motivated. The students have requirements to receive privilege each week. Having privilege allows the students to have extended breaks in the day, as well as attend the weekly field trips. Students have to memorize monthly scripture and stay academically balanced in order to obtain privilege. This year at CCA, we have gone to Love Oak for frozen yogurt, Grumps restaurant in Stephenville, the Southwest Regional Dairy in Stephenville, The Open Door in Cisco, Abilene Zoo, the Carbon Volunteer Fire Department, Dinosaur Valley and more. Our students work hard all year long and we love to show our students how their hard work pays off.

Construction at CCA

Carbon Christian Academy has started construction for new classrooms for the school. The classrooms are going to be where the old sanctuary of Carbon Community Baptist Church was. We will have 6 new rooms; two of the rooms will be Learning Center 1 and Learning Center 2. The other four rooms will be a library, computer lab, science/STEM room and an art/music room. We are so excited to see the new growth here at CCA and cannot wait to see what God has in store. With new growth comes different challenges of making sure the school fills the classrooms with items we need.

Needs at CCA

Since CCA is now growing, we are in need of various items for the new classrooms. One of our biggest needs for next year is desktop computers for our computer lab. If you would like to help donate to the computer needs, please contact Nichole Monroe at 254-639-2560. We also have an Amazon wishlist for different items that we would like for the school. Here is the link for the wishlist:
